DESIGN PATENT INFORMATION DOCUMENT

LEXTRIA RESEARCH

STEPS FOLLOWED BY LEXTRIA RESEARCH TO DRAFT AND FILE AN APPLICATION

STEP 1

Obtain a checklist of required documents.

Gather representation sheets and necessary forms.

STEP 2

Prepare a representation sheet including seven views provided by the applicant.

STEP 3

Fill out and submit **Form-1** for the design patent application along with **Form-21** (Power of Authority) and **Form-24** for startups or small entities.

STEP 4

Submit the design patent application along with the required fees and receive the acknowledgment receipt and application number.

STEP 5

The Patent Office reviews the application for novelty and uniqueness, and any objections or clarification requests must be addressed accordingly.

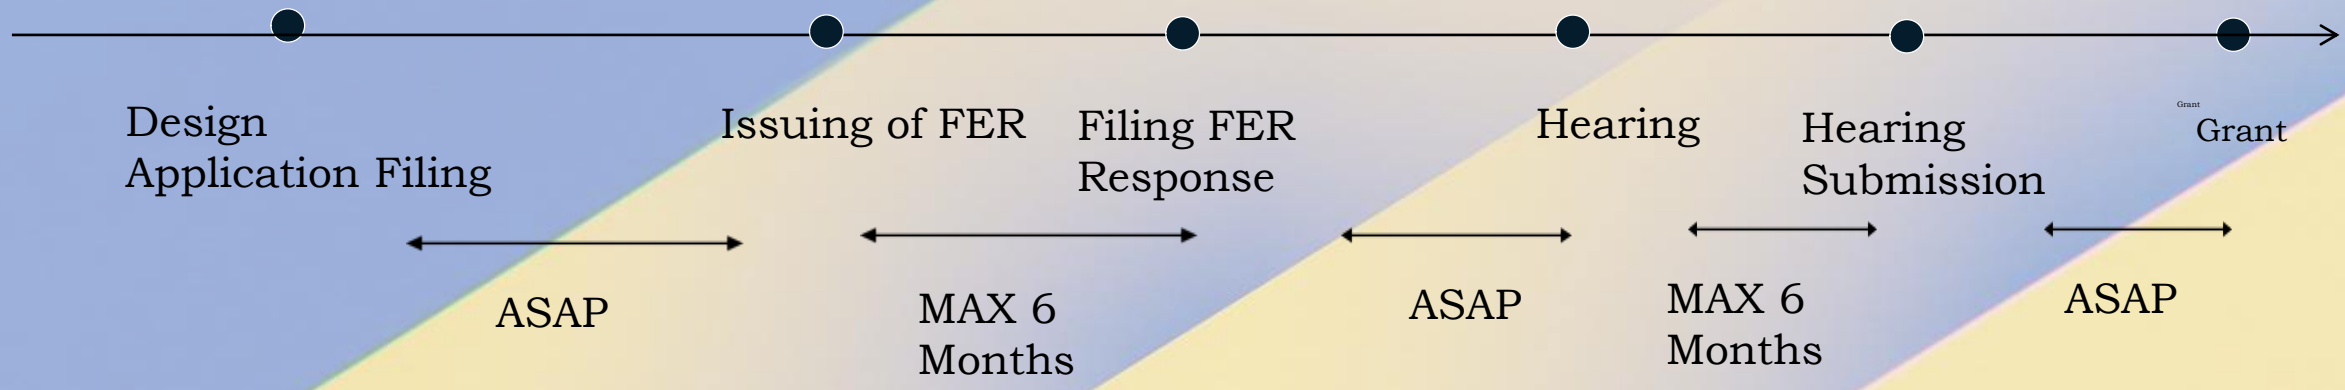

STEP 6

Once approved, the design patent is published in the official journal, and if no opposition is raised within the given time frame, the patent is granted and a certificate is issued.

SOME Keywords

LEXTRIA RESEARCH

APPLICANT	INVENTOR
The applicant may be a legal person or a natural person filing for a design	There is no concept of INVENTOR in a design.
REPRESENTATION SHEET	**DESIGN CLASS**
Differnt view of the product to be protected is represented in a representation sheet, preferably images or line/solid CAD images	the applicant files a Complete Design Application, which includes: Seven standard views (Front, Back, Left, Right, Top, Bottom, Perspective) and a Description focusing on the aesthetic elements (shape, pattern, ornamentation). Claim defining the visual uniqueness of the design.
First Examination Report (FER)	**HEARING**
The FER in a Design Patent is the first official communication from the Design Office. It contains formal objections related to novelty, distinctiveness, or classification of the design. The applicant must respond within 6 months, either clarifying or amending the application	A hearing in a design patent is conducted if the examiner raises objections regarding novelty, distinctiveness, or classification. The applicant can present oral arguments, provide additional clarifications, or amend the design description.
